This brochure is printed on Stucco, a FSC® paper.

This paper is produced in factories that are accredited
EMAS and certified ISO 9001-14001, PEFC™
and FSC® CoC. It is produced using pulp that
has been whitened without either chlorine or acid.
The paper is entirely recyclable and is produced
from trees grown in sustainable forest resources.

The printing inks use organic pigments or minerals.
There are no use of basic dyes or dangerous metals
from the cadmium, lead, mercury or hexavalent
chromium group.

The printer, Art & Caractère (France 81500),
is engaged in a waste management and recycling
programme for all resulting by-products.

AIRBUS

Short version.

The modern standard for utility & aerial work missions with an optimum useful load.

Long version.

The mission performer for public services missions. All weather, all conditions. Numerous equipment and cabin configurations.

High aerial work performer.

Choice between short or long version for optimized mission performance

Both versions capable of:

Highest in class sling load capacity 4,500kg/9,920lb.

High and Hot performance.

Agility in confined landing zones.

**A proven
robust design
with a modern
cockpit.
Simple to
operate, with
a unique pilot
assistance.**

**Optimized crew workload
and situation awareness**

Intuitive glass cockpit with FLI, Autopilot precision,
stability and flight envelope protection.

NVG compatible.

SAR upper modes (Long version).

All weather all conditions (Single pilot VFR,
Dual pilot IFR certified).

Full de-icing (Long version).

A truck, a bus, an ambulance, a rescuer, an observer, a sheriff...

Covers the full spectrum of public services missions

Unmatched mission efficiency.

Large reconfigurable cabin.

Cat. A, FAA, EASA certified solution.

Shortly on area: Quick start procedure, fast cruise and low consumption.

The modern standard for utility & aerial work missions.

High utility performer

Large reconfigurable cabin capacity.
No need for internal fuel tank.

Easy to deploy.

High availability.
Ship operation.
Main rotor blade folding.

An efficient Firefighting solution.

Bambi bucket or water belly tank.

A civil certified helicopter for both fighting the fire
and transporting fire fighters to/from the scene.

With its higher speed you will drop
more water per flight hours.

The proven heavy lift solution.
