

TRADE MEDIA BRIEFING 2022

Combat Aircraft Systems

Eurofighter Typhoon Update

Andreas Hammer
Head of Combat Aircraft Systems

AIRBUS

Operational Excellence I

- Rapid Pacific 2022: Large scale deployment with 6 EF
- EF System Support Centre was on duty 24/7
- Embedded Airbus Field Service Representative

Pilot feedback on Airbus Field Service Representative:
“Very effective and helps significantly to keep our flight operations steady.”

Operational Excellence II

- Short notice deployments to Romania and Baltics to secure NATO's Eastern flank
- Stable and high fleet utilization
- Resilient supply chain
- Additional future support via dedicated fast deployment packages

**Backbone of customer air forces with
> 750,000 flying hours**

Programme Highlights

- Spain orders 20 new Eurofighters with E-Scan radar @ ILA Berlin 2022
- Halcon EF are based on German Quadriga EF standard
- 1st of 38 centre fuselages produced for new German Quadriga EF

Upcoming Capabilities

TRADE MEDIA BRIEFING 2022

Enabling operations well into the 2060s:

- New avionics architecture
- Enhanced cockpit & connectivity
- New sensors & weapons
- Electronic warfare capabilities

The Bridge to FCAS

EF will be an integral part of the system of systems network and a reliable workhorse within FCAS:

- Teaming with Remote Carriers
- Providing distributed Command & Control
- Sensing and delivering kinetic and non-kinetic effectors
