DEFENCE AND SPACE

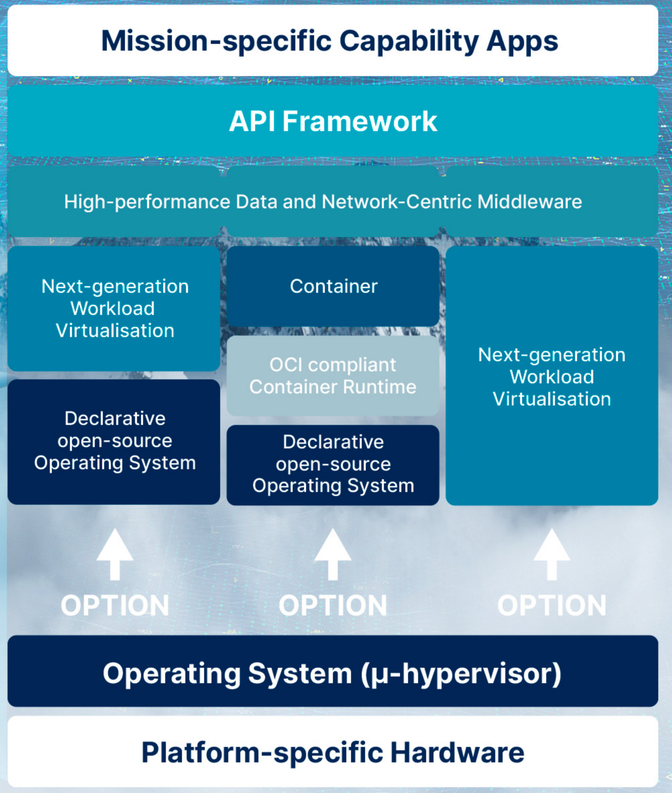
MARS Mission System

The intelligent **Multiplatform Autonomous Reconfigurable and Secure (MARS)** Mission System is a force-multiplier for Multi-Domain Operations and a Door-Opener for FCAS.

AIRBUS

MARS Mission System

MARS will be at the heart of future Airbus planned developments – Manned & Unmanned



- Secure Multi-Domain Operation
- Any Effector & Sensor Suite
- Rapid and Low Cost Evolution
- Full Mission Autonomy leveraging ML AI
- 3rd Party CApps (Capability Apps) integration
- Reconfiguration & Loading of CApps During Mission
