H125M BR.03-2026

THE H125M WILL NOT LET YOU DOWN.

The strongest armed scout helicopter in its class, H125M takes advantage of state of the art technology, with extensive use of composite material, its starflex rotor head and the excellent Arriel engine, noted for its legendary reliability. This helicopter is easy to maintain and operate.

Deployed worldwide, more than 7000 Ecureuil family helicopters have been delivered, more than 38 million flight hours have been logged and more than 90% availability declared.

Availability and sustainability are key for military operations.

H125M A HIGH PERFORMANCE SINGLE ENGINE HELICOPTER.

A talented 2-ton class aircraft aiming to answer Armed Forces requirements. Easy to operate in extreme and harsh conditions, this Armed Scout helicopter combines safety and performance.

The H125M is a multi-role helicopter matching any of the following missions:

- Armed Scout
- Light Utility
- Training

EXTREME PERFORMANCES FOR DEMANDING CONDITIONS.

Incredibly manoeuvrable and agile, offering a very small footprint, this helicopter is perfectly designed to discreetly execute essential attack missions on the battlefield.

Equipped with a high performance SAFRAN engine, this helicopter is the most powerful "single engine" worldwide, able to fight in extreme hot and high conditions.

Operational whatever the environment you can rely on this amazing combat system.

DOMINATE WITH HForce®.

This new generation Airbus weapon system brings to the H125M a comprehensive armament suite for precision effects and flexibility in engaging diverse targets, by day or by night.

HForce® options for H125M include machine guns, rockets or guided weapons.

Based on AIRBUS' experience from the most advanced attack helicopter, TIGER, HForce® offers intuitive target acquisition and remarkable accuracy, decreasing the workload onboard and allowing the crew to focus on their overall mission.

No compromise when facing the threat.

3 COMPLEMENTARY OFFERINGS.

H125M HForce®

AH-125 / MH-125 ARES

H125M

H125M HForce®

Option 0:

HForce® ready Fixed parts & harness.

Option 1:

Armed reconnaissance

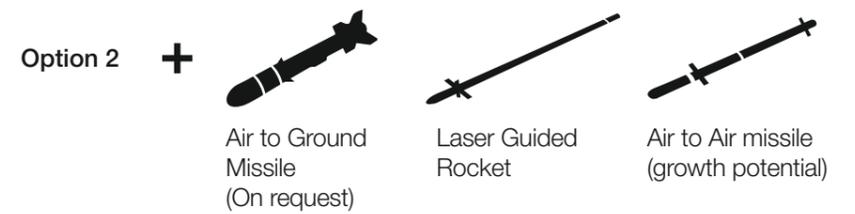

Option 2:

Ballistic light attack

Option 3:

Ballistic & guided light attack

HFORCE® IS MATCHING ALL OUR CUSTOMERS REQUIREMENTS

Modular

The robust and agile architecture is easing any available armament integration.

ATTACK VERSION

MULTI-MISSION VERSION

AH-125 ARES

MH-125 ARES

- 1** Minigun and Rockets
PGM's available as growth option
- 3** Data Links

- 2** Searchlight
- 4** EO / IR

- 1** Rappelling
- 4** Data Links

- 2** Fast Rope
- 5** Searchlight

- 3** EO / IR
- 6** Special Ops platform

A complementary offering to the H125M, the Ares unleashes the combat capability of the H125 in a US origin configuration.

MASTER SINGLE ENGINE HELICOPTER FOR MILITARY TRAINING.

Simple to implement but well equipped, the H125M is a perfect tool for basic and advanced single engine instruction. Beginning their training with the H125M, trainees from Armed Forces will learn to fly from their first hover up to night vision goggle tactical fires on the same platform.

- Basic Training
- Conversion to role
- Day/Night flight - VFR/IFR
- Night Vision Goggles flight
- Combat flight (NOE)

FLEXIBILITY FOR LIGHT UTILITY.

With a versatile 3m³ flat floored cabin, the H125M offers real flexibility. It is integrated with a broad array of equipment enabling it to perform the widest range of missions.

Tactical transport:

Compact helicopter with a roomy cabin, the H125M can easily transport troops and perform MEDEVAC missions.

Command and Control:

The H125M has the greatest range in its category. It allows C2 air missions or gives the capability to conduct Close Air Support (CAS) for fixed wing aircraft from a roomy and very handy flying cabin. In this helicopter, there is no separation between the cockpit and the cabin, and the field of view is excellent, even from behind.
