

Widespread adoption of electronic invoicing in France : How the switch to electronic invoicing affects our suppliers

Dear Madam, Dear Sir,

As part of the electronic invoicing reform set to take effect in **France on September 1, 2026**, your invoices will now be processed electronically, in accordance with the specifications published by the [DGFIP](#).

The Airbus Golden Rules regarding invoicing remain applicable and must continue to be followed.

An initial communication is available on our [Suppliers](#) website.

To meet the requirements of this reform, Airbus has selected the Generix Approved Platform (PA).

Airbus has set up electronic invoicing addresses for its various entities. To ensure the proper receipt and processing of your invoices starting from the reform's effective date, please take note of the addresses listed below. Suppliers using third parties will soon receive a specific communication regarding the address lines to be used.

Here is the [link](#) to the directory.

Please use these new addresses as of **September 1, 2026**, for all invoices falling under the scope of the reform.

Division	Billing Entity	Format	Electronic Addressing Line
AI	Airbus SAS	SIREN	383474814
AI	Airbus Operations SAS	SIREN	420916918
AI	Airbus ATR SAS	SIREN	393146550

The Taulia and AirSupply platforms will remain available and will continue to be the preferred channels for invoicing not falling within the e-Invoicing and the e-Reporting scopes of the reform.

Thank you for your valuable cooperation.

Best regards,
